SOFTWARE ENGINEER -IOS

As a dedicated iOS software engineer, I thrive on the dynamic nature of the technology landscape and am driven by a passion for crafting innovative solutions. My commitment to excellence is evident in my continuous pursuit of the latest advancements in iOS development. Always eager to tackle new challenges, I am not only adept at mastering new technologies but also excel in leveraging them to create seamless and cutting-edge mobile applications. My journey is fueled by a genuine curiosity about the intricacies of iOS development, and I am eager to contribute my skills and enthusiasm to projects that push the boundaries of what's possible in the mobile app ecosystem.

TECHNICAL SKILLS

- Swift - (SwiftUI , UIKit)
- Objective C
- Next.js
- ReactJS
- Git(Version Control)
- Trello
- Jira

PROFESSIONAL EXPERIENCE

CL. – Software Engineer (iOS) **Oct 2025 – Present**

Jova Wallet – iOS (Swift/SwiftUI)

- Developed Jova Wallet, a secure multi-chain cryptocurrency wallet for iOS using SwiftUI and MVVM.
- Implemented onboarding (passcode, biometrics, seed phrase backup), BIP39 wallet generation via TrustWalletCore, and secure storage with Keychain.
- Integrated WalletConnect v2 for dApp connections and REST APIs for balances, transactions, token swaps, and market data.
- Built environment-based configuration (dev/staging/prod) and session handling with PIN and biometric auth.
- Delivered a production-ready app with Lottie animations and reusable UI components.

Hithsa Pty Ltd - Software Engineer iOS (Part-time) **June 2025 - Sep 2025**

Vemas - iOS (Swift/UIKit)

- Spearheaded the development of Vemas, a workshop management iOS app for small workshops.
- Automated tasks and streamlined operations for enhanced efficiency.
- Implemented features like online booking, digital calendars, and streamlined invoicing.
- Utilized Swift with UIKit for a seamless user experience.
- Contributed to optimized workshop productivity and elevated customer service.

ZOOMi Technologies Inc - Software Engineer (iOS) **Jan 2022 - May 2025**

JustMove- iOS(Swift/Objective C/UIKit)

- Developed JustMove, an iOS app infusing competition into running, enabling real-time or flextime races worldwide.
- Implemented features for performance tracking, voice notifications on competitors, and a community feed for sharing achievements.
- Utilized Swift and Objective-C to ensure a robust and versatile application.
- Enabled users to track personal workouts and create custom races to challenge friends.
- Contributed to a dynamic and engaging fitness community experience.

Fixel Magic - Frontend (ReactJS)

- Developed and maintained the Fixel Magic application, a checkout-free autonomous store utilizing computer vision technology.
- Implemented a seamless user experience allowing entry through credit cards or mobile apps and enabling users to grab items and exit without facial recognition.
- Utilized ReactJS for the front-end to create an intuitive and responsive interface.

Elegant Media Sri Lanka - Software Engineer Intern (iOS) **Jan 2021 - Aug 2021**

Luxtix- iOS (SwiftUI)

- Contributed to the development of Luxtix, an event ticketing iOS app offering Corporate and Customer accounts.
- Enabled Corporate account holders to create events and allowed customers to order tickets online through their accounts.
- Implemented features using Swift and SwiftUI to create an intuitive and visually appealing ticketing platform.

R8ER-iOS (SwiftUI)

- Developed R8ER, an iOS app for rating movies and TV series, providing users the ability to add, rate, and discuss their favorite media.
- Implemented features allowing users to create group chats for discussing movies and series, enhancing the community aspect of the app.
- Utilized Swift and SwiftUI to create a user-friendly and engaging interface.

Friendly -iOS (SwiftUI)

- Collaborated on the development of Friendly, an iOS app with Personal and Business accounts, catering to event creation and ticket ordering.
- Implemented features enhancing communication and interaction, making it easy for users to engage with events.
- Utilized Swift and SwiftUI to create an intuitive and feature-rich mobile application.

ACADEMIC BACKGROUND

Bachelor of Science in Computer Science **Jan 2018 - May 2021**

University of Colombo School of Computing

- Data Structures & Algorithms
- Advanced Programming Concepts
- Database
- Computer Networks
- Web Development
- Git(Version Control)

SOFT SKILLS

- Communication
- Leadership
- Fast learner
- Problem Diagnosis and Resolution
- Creativity
- Self-Motivation
- Attention to Detail
- Adaptability
- Time Management

EXTRA CURRUCULAR ACTIVITES

Community Volunteer

UCSC Exploration Club (2018-2021)

Junior Prefect

Palatuwa Central College, Matara (2010-2011)
